## Base Mix Foliar Nutrient

- True Solution Product
- pH Balanced Formula
- High Nutrient Availability
- Excellent Compatibility with most Pesticides

Over 60 years of building high quality Starter & Foliar products for you!

TMR Base Mix is a total balanced nutrient product intended to be used as a foliar complement to a calculated fertility management program. It may be used alone or in combination with other TMR or other NACHURS ALPINE SOLUTIONS analysis, to meet the nutrient requirements of the specific crop.

Suggested use rates vary from 1 - 3 gallons/acre according to crop, growth stage & other additives used.

Addition of EDTA chelated micronutrients may be of added benefit at recommended rates. ENHANCED CRN & FORTIFIED CRN are suitable additives for additional Nitrogen.

Contact a qualified TMR or NACHURS ALPINE SOLUTIONS representative for questions regarding additives.
